106.2 Associate Dean Mendelson said that applications in the current year had decreased from the previous year, since the previous year had included Ontario's double cohort. Registrations for the current year had increased. Associate Dean Mendelson pointed out that the Faculty of Science had attained its target for registrations. There was an increased enrolment in the Faculty of Arts, which would increase pressure on the Faculty of Science, since so many Arts students take Science courses.

106.3 Dean Shaver said that student/professor ratios had been lowered in recent years, which was the strategy of the Faculty. He said that Associate Dean Mendelson was constantly monitoring the enrolment situation, and liaising with appropriate offices in the university. Dean Shaver said it was thanks to Associate Dean Mendelson that the enrolment numbers were right on target.

(ii) **Planning Update - Dean Shaver**

106.4 Dean Shaver said that over the summer, a new operational model for budgeting in the university had been introduced. This model would allow funding to address the university's strategic priorities. The strategic priorities of the Faculty of Science had been very positively received. He said that a document outlining the university's priorities would be forthcoming. Dean Shaver reminded members that the Faculty of Science Planning Document was on the Science Website.

106.5 Dean Shaver said that so far things were going well for the Faculty in the new planning process,

106.6 The new professors in the Faculty of Science were introduced to the Faculty meeting.

106.7 Dean Shaver welcomed the new faculty members, and said that there were 23 new professors in the Faculty of Science. He added that their credentials were very impressive.
